## **MEAT BARONS ROB NEW YORK**

Evening World's Investigations Show There Is No Excuse for the Exorbitant Prices Maintained Here by the Trust.

RATES LOWER OUT WEST.

Receipts Are Heavy and a Fall of Three Cents a Pound Is Reported, but There Has Been No Decrease in This City.

Investigations made by the Evening World show that despite the fact that beef has decreased in price in Chicago and Kansas City, from which markets the meat supply of this city is secured, there has been no corresponding de-

crease in price in New York.

Beef is at the prohibitive price that
has reigned ever since the rise of months ago, and the condition that caused such an outburst of popular in-

dignation at that time prevails to-day.

The Beef Trust, in other words, is us strong as ever, notwithstanding that its methods have been exposed and attempts have been made to check it. So vehement were the denunciations of this combina tion when the price of beef was put be youd the reach of the poor that it ap peared that the combination would b broken up. But there interposed a hap-pening that drove from the public mind all thoughts of the Beef Trust and has

kept it out-the coal strike. Lost Sight of Meat.

This was a matter of so much public interest through the summer and fall that the meat question was lost sight of. With the advent of cold weather the scarcity of coal became the crying need of the hour, and the price of beef was lost sight of altogether. Even the an-nouncement from the West that the price of beef has gone down has beer practically overlooked in the coal short Of course the beef magnates are or

hand with excuses. They say that while beef is lower on the hoof there are no enough cars to transport a sufficient supply to this market to affect the price. As a matter of fact the Beef Trust controls its own cars and could place as much meat in this market as it desired. The

meat in this market as it desired. The project is to hoodwink the people of New York as long as possible and gain additional profit from the exorbitant prices demanded here as against the lower purchase price of the raw product at the packing houses.

Once more does the coal strike come in handy as a peg upon which the beef magnates hang their subterfuges. They say that so many cars are hauling coal that the railroad lines are blocked and that this interferes with the shipments of beef. So the misfortune of New York in being comprelled to pay prices for beef that bar it from the tables of thousands is played against its twin misfortune—the exorbitant domands of the operators and dealers in coal for that urgent necessity of life.

Evening World's Investigation.

Evening World's Investigation. Correspondents of the Evening World in Kansas City and Chicago have investigated the situation and report that there are plenty of fat cattle on the ranges; that the farmers are anxious to ship, but that the beef barons, in order to keep up prices if possible, have advised their agents in the field to buy as few cattle as possible. A realization of the way the managers of the Beef Trust are gouging New York may be gained from the following despatches.

### MEAT TRUST DODGES, AS IT ALWAYS DOES.

(Special to The Evening World.)

CHICAGO, Dec. 24.—Notwithstanding the substantial decline in live stock quotations, retailers of the country have failed to make corresponding reductions in price to the consumer. The retailers claim they have received little or no concessions from the packers.

Packing interests say that prices locally are easier, and that there is no reason why the reduction should not be felt in the East. When asked why, in view of liberal receipts, a further reduction is not made, they dwell on the duction is not made, they dwell on the libral receipts of dressed turkeys, which caused the market to sag ½ cent which caused the market to sag ½ cent on point on dressed stock, the best dry picked going at 17½ cents. This is poor comfort, however, as it will place the birds in the hands of consumers around 21 cents a pound, which is double the advanced price of labor and the diffi-culty experienced in moving fresh meat price of a year ago. shipments over Eastern lines.

The discharge of 100 men in the can-FALLS THREE CENTS.

The more department of Armour & Co. yesterday nearly precipitated a general strike. During the busy season the employees work Sundays. Owing to a misunderstanding they falled to report last Bunday and were discharged. President Donnelly, of the Amalgamated Meat Cutters and Butcher Workmen, held a conference with officials of the company, and has given orders for the men to return to work. Other packing firms to return to work. Other packing firms the large packing-houses say, is due wholly to the increased supply of cattle summer. Stock was on thin grass at the prevailing rate of 6 per cent, rowers for over the holidays obliged to pay the highest prices day.

Bankers were not so confident as tofore that there would be no insqueeze and admitted that the week would be a crucial one so the money market is concerned. Rates are expected to go as his summer. Stock was on thin grass at the point at ning department of Armour & Co. yes-

Rule Works Only One Way.

The public may reasonably expect that, with the cattle market going down at such a rapid pace, beef should be cheaper," said a New York buyer this merning. As an excuse for the advance in prices at the butcher shops last summer packers pointed out the paucity of receipts and explained that they were compelled to pay the highest prices for cattle in twenty years. This justified the higher cost of meat, but, now that cattle values are at the lowest point of cattle in twenty years. This justified the higher cost of meat, but, now that cattle values are at the lowest point of the year, the public should get the full benefit of the decline. Its a poor rule that won't work both ways. There is probably a shortage of cars, akinough George R. Frisble, department manager for Armour & Co., states the situation is improving. Eastbound roads are said to be 1,000 to 3,000 cars roads are said to be 1,000 to 3,000 cars roads are said to be 1,000 to 3,000 cars roads to grow worse as the situation is improving. The reduction is due wholly to increased receipts of cattle.

There is some delay in shipments to second due to the the sanding account that is summer. Stock was on thin grass and was not in condition for shipment. With the great corn crop and the heavy with the steers took on weight, and all of the western country produced a large beef supply.

### KANSAS CITY PRICE FALLS THREE CENTS.

(Special to The World.)

KANSAS CITY, Mo., Dec. 24.—The
price of beef has dropped from 2 to 3

tofore that there would be no money wholly to the increased supply of cattle all summer. Stock was on thin grass and was not in condition for shipment. gossip says the money pool has decided Manhattan on weight, and all of the western coun- ling opened practically unchanged in

try produced a large beef supply.

Then came a tumble in prices. Beef that was worth \$8 in the dry season still heavy. dropped to \$6 and \$7.50, and the fat Sterling cables were quoted at 4.8750 stock rushed in was only limited by the and 4.8760, with demand at 4.8660 and about two weeks ago when the snow The brokers and commission men who

The railroads declare they have not enough engines to even move the coal that is blocking the yards of the far Bouth. They say the rush of Christmas business is so great they cannot handle ingst-class freight.

DR. KILMER & CO., Binghamton, N. Y.

GENTLEMEN:—My trouble began with pain in my stomach and back so severe that it seemed as if knives were cutting me. I was treated by two of the best physicians in the county and consulted another. None of them suspected that the cause of my trouble was kidney disease. They all told me that I had cancer of the stomach, and would die. I grew so weak that I could not walk any more than a child a month old, and I only weighed Fight Per Cent. Advance Is ninety pounds. One day my brother saw in a paper your advertisement of Swamp-Root, the great kidney remedy. He bought me a bottle at our drug store and I took it. My family could see a change in me. Ior the better, so they obtained more and I continued the use of Swamp-Root regularly. I was so weak and run down that it took considerable time to build me up again. I am now well, thanks to Swamp-Root, and weigh 148 pounds, and am keeping house for my husband and brother. Swamp-Root cured me after the doctors had failed to do me a particle of good.
